be the voice

ADVOCACY TRAINING CONFERENCE
FRIDAY, SEPTEMBER 13, 2019

Presented by: Trumbull County Domestic Violence Task Force
Join us for a one-day conference focusing on trauma in the digital age. Be the Voice will address trends and best practices for identifying and protecting vulnerable populations through the lens of modern technology. Afternoon workshop sessions will focus on special population concerns including human trafficking, substance abuse, and elder abuse.

Anyone working to be the voice for victims of violence, stalking or assault is invited to attend. We are applying for CEU and CLE accreditation for this workshop.
